### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:
2. Applicants' communication paper dated 1/9/2004 is acknowledged. Together with their earlier communications, applicants have cancelled claims 1-18,24, and amended claims 18, 21. Therefore, the claims under consideration are the claims 18-23,25,26, which are renumbered as claims 1-8 respectively.
3. The rejections made under 35 U.S.C. 112 paragraph second are withdrawn because applicants' above stated cancellation of claims, and amendments are sufficient for the same. The claims as presented now are definite and have clarity.
4. The closest prior art(s) of record ref. Young et al (U.S.P. 192785, EP 403 185 and U.S.P. 5025031) teach making of compounds with a core: "Phenyl-Phenyl-O-SO<sub>2</sub>-NH<sub>2</sub>". The instant invention differs from the Young by not having X1 and X1 substituents equal to "a lower alkyl group". Young et al do not indicate or suggest to arrive at the instant compounds with X1 & X2 substituents onto the phenyl group as defined herein.
5. Therefore, the instant invention of compounds is deemed to be novel and patentably distinct.
6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
